Angkor Ascension 2012 – Interview

Debbie Creagh

Can you please give us a brief description about yourself including:

What is your background?

What have you studied?

Who are you?

I am a Certified Siam Reiki TM Master Teacher and Spiritual Counsellor practicing energy healing techniques. I am certified in Psychic Awareness, Psychometry, Crystal Healing, How to See the Aura, Pendulum Diagnosis and Transcending Entities and the Development of the Psychic Awareness under the certification of The Institute of Applied Holistic Health Sciences.

Can you name an experience you've had that is connected to Angkor Wat?

I have had some psychic experience through meditation recently where I saw a light spectrum coming from one of the sacred places there and then was shown the same thing in Egypt on the pyramids. The energy there is strong and pure

and connects to other places with the same high vibration at the time of the energy shift.

What is your spiritual connection to Angkor Wat?

I just feel very drawn to going there now that the energy of the world is building and changing. I feel that there is a portal or doorway there into other universes and dimensions that we can access.

How is that spiritual connection of benefit to humanity

Since the energy there is connected to other spiritual locations, doing healing and ceremonies there to cleanse the leylines and vortexes and help purify the energy on Earth i feel this will be of great benefit to humanity in the future.

What is the good side of that connection

There is not only a shift in the energy of the earth but also in people. This means that it helps those that are spiritual to connect more to the source and have more understanding and clearer channelling after the time there.

What is the bad side of that connection

Unfortunately, portals to the darker places in the universe have been opened with this energy shift so there is need for healing

and understanding in other dimensions as well as helping those who are finding this transition difficult due to blockages they are holding on to.

Can you give me a brief description of your understanding of the energy at Angkor Wat?

Will let you know on my return

What do you feel you can bring to this experience that you would like to share with others?

Being part of group of people who all have the same intent to help humanity through the work we will do there so its a coming together of people for a very important cause and co-creating a new world with better energy.

What do you hope to achieve at Angkor 2012?

Personally?
